About

I am a highly-motivated, creative and pro-active designer and web developer able to research, design and develop user experiences for various digital products including mobile applications, websites and web applications. I use my broad range of skills to execute designs that are clean, simple and effective.

Work Experience

Silvi **Remote**   August 2023 - Present
Senior Frontend Developer

Focusing on developing user interfaces and enhancing user experiences. Collaborating with cross-functional teams to deliver efficient and responsive web applications. Utilizing technologies such as NextJS(React), TypeScript, and ensuring optimal integration with backend systems.

Chizaalabs **Remote**   Apr 2017 - July 2022
UI/UX Consultant → Full Stack Developer

Designed and built web apps for clients across the globe. Built a (decentralized finance)defi social trading app for Loibon from scratch. Technologies: NextJS, React, TypeScript, GraphQL, Solidity, Firebase, The Graph,

Ryden International   Jan 2020 - Apr 2022
Digital Marketer

Successfully executed and optimized digital marketing campaigns. Crafted and implemented strategies that led to a 30% increase in brand visibility and a 25% growth in user engagement. Utilized a mix of SEO, SEM, and social media marketing to achieve targeted goals. Implemented data-driven approaches, resulting in a 20% improvement in campaign performance.

Education

Moringa School   April 2022 - Nov 2022
Software Engineering

Jomo Kenyatta University of Agriculture and Technology   2015 - 2019
Bachelor's Degree in Real Estate
